KWIKfit™ is a registered trademark of Anthony Innovations Pty Ltd

# A superior security roller in every aspect

## Features and Benefits:

- Load capacity caters above market requirements increasing longevity
- Rack adjustment mechanism allows full adjustment in a single revolution for quick and easy installation
- 9.5mm height adjustment range accommodates for a wide range of variability
- Anti backwind feature enables the product to remain positive through time
- Spring loaded mechanism enables constant contact with the track reducing the possibility of the door derailing
- Polymer wheels reduce noise and minimise track wear

## Upgrade Options:

- KWIKfit™ Coastal is built with sealed stainless precision bearings for ultimate protection against corrosion and contamination

Adjustment Range
