KWIKfitTM is a registered trademark of Anthony Innovations Pty Ltd

Designed to last in any application

Features and Benefits:

- Load capacity up to 40kg
- Rack adjustment mechanism allows full adjustment in a single revolution.
- 9.5mm height adjustment range accommodates for a wide range of variability
- Anti backwind feature enables the product to remain in adjusted position
- Spring loaded mechanism enables constant contact with the track reducing the possibility of the door derailing
- Polymer wheels reduce noise and minimise track wear

Corrosion Resistant:

KWIKfit™ Coastal is built with sealed stainless-steel precision bearings for improved protection against corrosion and contamination. It is an ideal choice for even the most demanding applications.

Adjustment Range
