# Compact, flexible and powerful

## Features and Benefits:

- 400kg panel (200kg per roller) load capacity allowing for larger and heavier doors.
- Increased strength through the main housing ensures greater structural integrity.
- Dual layer bogie carriage ensures balanced load distribution which guarantees smooth panel operation and longevity.
- Linear design allowing for easier adjustment.
- Precision bearing components reduce operating force.
- Adjustment Screw designed in system to avoid contact with wheels eliminating the possibility of wheel damage.
- Increased Screw Pitch for greater mechanical advantage and easier adjustment.

## Product Variations

- 38mm diameter wheel  
– 400kg panel (200kg per roller).
- 32mm diameter wheel  
– 400kg panel (200kg per roller).
- **Stainless steel, plated steel** or **polymer** wheel material.
- 11mm adjustment range.
- Multiple housing variants to suit a range of systems.
